## Ground News

By now, many of you will have noticed that one of the older established Oak trees adjacent to the brook on the 10<sup>th</sup> is down and being cut up for removal. Sadly

this tree has succumbed to a combination of the wind and very dry conditions. We are removing the tree and tidying up around it and also using the "opportunity" to de-silt the brook.

We plan to feed the fairways soon to help recovery after the long dry spell.

We have sought advice from an expert about tree management and are putting together a plan for the long, term based on this, to present to the Committee.
